## Listing of the Claims

- 1. (Currently Amended) An [[improved]] emulsifier system [[for use in producing dehydrated starch ingredients wherein the emulsifier system comprises]] comprising from 50 to about 99%, by weight, of a polyglycerol ester having a polyglycerol backbone of from 2 to about 10 glycerol units wherein not more than about 40% of the hydroxyl groups of the polyglycerol are esterified with fatty acids (hereafter "PGE").
- 2. (Original) An emulsifier system of Claim 1 wherein at least about 80% of the PGEs, by weight, have a polyglycerol backbone of from 2 to about 5 glycerol units.
- 3. (Original) An emulsifier system of Claim 1 wherein at least about 80% of the PGEs, by weight, have a polyglycerol backbone of 2 or 3 glycerol units.
- 4. (Original) An emulsifier system of Claim 1 wherein from about 20% to about 35% of the hydroxyl groups of the polyglyerol are esterified with fatty acids.
- 5. (Original) An emulsifier system of Claim 1 comprising PGEs wherein at least about 80% of the ester groups are derived from saturated fatty acids.
- 6. (Original) An emulsifier system of Claim 5 comprising PGEs wherein the ester groups are derived from one or more of  $C_{14}$ ,  $C_{16}$ ,  $C_{18}$ ,  $C_{20}$ , and  $C_{22}$  fatty acids.
- 7. (Original) An emulsifier system of Claim 1 wherein the emulsifier system contains not more than about 15% free polyglycerol.
- 8. (Original) An emulsifier system of Claim 1 comprising a material selected from the group consisting of 2-1-P, 2-1-S, 3-1-P, 3-1-S, 4-1-P, 4-1-S, and mixtures thereof.
- 9. (Original) An emulsifier system of Claim 1 further comprising monoglyceride.
- 10. (Original) An emulsifier system of Claim 1 further comprising a lecithin.
- 11. (Original) An emulsifier system of Claim 10 comprising from about 1% to about 25% lecithin, and from about 75% to about 99% PGE.
- 12. (Original) An emulsifier system of Claim 10 further comprising monoglyceride.

## 13-37. (Cancelled)

- 38. (New) An emulsifier system of Claim 1 comprising polyglycerol monoesters having a polyglycerol backbone of from 2 to about 10 glycerol units, wherein at least about 40%, by weight, of the polyglycerol monoesters are diglycerol monoesters.
- 39. (New) An emulsifier system of Claim 38 wherein at least about 75%, by weight, of the polyglycerol monoesters are comprised of one or more of 2-1-S, 2-1-P and 2-1-IM.
- 40. (New) An emulsifier system of Claim 1 comprising polyglycerol monoesters having a polyglycerol backbone of from 2 to about 10 glycerol units, wherein at least about 40%, by weight, of the polyglycerol monoesters are di-triglycerol monoesters.
- 41. (New) An emulsifier system of Claim 40, wherein at least about 75%, by weight, of the polyglycerol monoesters are di-triglycerol monoesters.
